

# The Military Order of the World Wars

## CHINA

23 July 2007

- We are very concerned about China's long range plans to be the dominant economic and military power in the world.
- China has an 8 Phase program underway extending out to the year 2030. They are in Phase 2 now.
- China and Russia are conducting joint military exercises that include the use of nuclear missiles and bombers. The "main enemy" is the United States.
- China has at least 20 silo-based ICBM's that can launch nuclear weapons and in thirty minutes which could kill 100 million Americans. They also have 10 to 14 sub-launched missiles with such warheads.
- China has about 900 short range ballistic missiles pointed at Taiwan and 700 plus combat aircraft within un-refueled operational range of Taiwan.
- China is building up their military forces by buying weapons systems from Russia including submarines, guided missile destroyers, combat aircraft, surface to air S-300PMU-2 missile systems with a range of 124 miles and a phased array radar-based SAM system with a range of 93 miles.
- China recently deployed its third Type 093 nuclear-powered attack submarine.
- China will soon have operational its first anti-ship ballistic missile the DF-21, designed to attack US Aircraft Carriers and other warships, leaving our US Navy vulnerable with no missile defense.
- China has conducted an extensive industrial and military covert spying program within the US and Canada.
- China has stolen the designs of many US nuclear warheads and other military secrets. In addition, the Clinton Administration transferred dual-use missile guidance technology to China.
- China recently successfully destroyed one of their satellites with an anti-satellite missile. Their first priority targets are the US military satellites.

- **China has established information warfare units to destroy our computer systems and networks with viruses.**
- **China has formed an alliance with Cuba for use of their Soviet-built electronic intelligence gathering base to spy on the US.**
- **China has conducted armed subversion against Malaysia, Singapore, Thailand, the Philippines, Indonesia, and other Asian and African countries.**
- **China has invaded and seized control of Tibet and is slowly taking control of Burma.**
- **China has expanded its presence in all African countries.**
- **China has expanded its presence in Panama, Bolivia and other Latin and South American countries.**
- **China can close the Panama Canal on the pretext of an “accident”.**
- **China has about 1.4 million ground troops, 400,000 of them deployed to the three military regions opposite Taiwan.**
- **China threatens to destroy many of our cities if we were to help Taiwan defend itself.**
- **China controls more than \$200 Billion of US debt.**
- **China increased its military budget by 17.8 percent in 2007 totaling an estimated figure of \$45B and it is probably \$40B to \$80B more.**
- **China is one of the leading suppliers of WMD to N. Korea and Iran.**
- **The United States military force structure needs to be significantly expanded to provide a credible deterrent to China’s 2030 goal. Efforts should begin now to rebuild our military forces back to the 1990 levels.**

**LTG (Ret.) Sam Wetzel**
